**Joseph (Joe) Horsley  
Deputy Governor 2022-23**

Joe joined the family sugar confectioner, MA Craven & Son which had been trading in York for 180 years after reading Law at Queen's College, Oxford.

After three years in export sales, he left to establish a chocolate manufacturing business York Dragee in Pocklington. Initially manufacturing niche specialities, Joe claims to have invented the chocolate coffee bean. The company then moved into producing food components for multinational companies.
